Selling

I am working for you every step of the way! My combination of skill, experience, and technology ensures that I can sell your home for the highest possible price and in the shortest period of time. I have all the tools to meet the demands of a highly competitive, and new virtual Real Estate market.

Marketing Your Home

As soon as you list your home with me, it will be entered in the Multiple Listing Service (MLS) database. Other agents can immediately access your property information and it is sent out to many buyers through our MLS Collaboration Site. Plus, your property will be included in many different websites, including and not limited to Re/max.ca, MLS.ca, Wendy@wendymcleod.com, and many more.

Pricing Your Home

When you think about it, normally there are several other homes for sale competing with your home. I will help you price your home competitively to attract qualified buyers. The way I do this is by a Comparative Market Analysis (CMA) report, which will show you a range of prices for listed and SOLD homes in your area.

I'm With You Every Step Of The Way...

Remember, I will be working for you every step of the way to make sure that you get the highest possible price for your home in the shortest period of time.
